Sept 12<sup>th</sup>, '99

To Commissioner Henney  
F.O.A. Rockville, Md. 5323 / 99 SEP 23 P1:59

Dear Mrs. Henney,

I am very concerned for the health of our citizens, especially our young people. As I travel about, I see everywhere, in schools, on playgrounds, in the malls, on the beaches, on the streets and at home, young people are carrying, and drinking soda pop almost constantly. While this goes on, the statistics on diabetes and other degenerative diseases are rising: along with obesity, osteoporosis and heart disease.

I urge you to take steps as suggested by Michael Jacobson of the Center for Science in the Public Interest. Please consider taking the steps necessary to stem this flood of sugar our citizens are ingesting everyday.

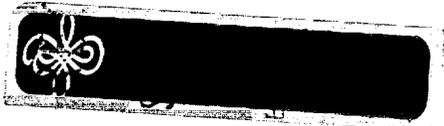

Thank you,

Harry M. Kemmerer  
Maryorie Kemmerer
